

The Faces of ADVOCAP Jennifer

“Hello my name is Jennifer and I am very happy to say that I was the 100th person to receive help from ADVOCAP's Work N Wheels Program. For 3 years I was unable to get to and from work, daycare and my children's school without relying on rides from friends, family and taxi cab services. I lost multiple jobs due to tardiness. My children were late for school a lot and at times my babies weren't able to get to daycare which resulted in a high daycare bill. My children were very excited when we got our car, they finally would be able to attend extra activities and get to and from their destination without stress. I want to say thank you for helping my family with a vehicle. I have 5 amazing, beautiful children and it makes me so happy that I can do things for them on my own. You have made a difference in all our lives. You have changed our lives for the better.”
